Main Street - Franklin, Tennessee

Main Street – Franklin, TN

This truly unique image is a composite of the center portion of 26 images that were shot in the Fall of 2003 (Gray's Drug Store was still open) and stitched together digitally so that every view is like looking straight at each building. Hopefully, this attempt captures some of the beauty and history of the architecture of downtown Franklin. Eventually, the goal is for the other 3 sections of the heart of Franklin's Main Street to also be made into panoramas.
